An Information Systems student specializing in front-end development with experience in web development, team coordination, and digital operations. Interested in building modern digital products with clean user interfaces and an optimal user experience.

EXPERIENCE

Event Operations Coordinator • AFCO Mahakarya Hutama

Ice Skating & Snow Playground Events | Dec 2025 – Jan 2026

- Managed the operations of a multi-location event by coordinating several Head Crew teams to ensure the smooth running of activities throughout the event period
- Developing a manpower distribution strategy (crew, cashiers, medical staff, ring guards) to improve operational efficiency and effectiveness
- Manage the crew's fingerprint attendance and payroll systems with a high degree of accuracy
- Handle operational troubleshooting and customer complaints quickly and effectively in the field
- Analyze daily sales reports and operational performance to inform decision-making

Head Crew • AFCO Mahakarya Hutama

Ice Skating & Snow Playground Events | 2023 – 2025

- Led operational crews during events to ensure smooth field activities
- Organized and optimized task distribution and work schedules for team members
- Maintained team performance and discipline in dynamic working environments
- Acted as a communication bridge between management and operational teams
- Handled on-site operational troubleshooting to minimize activity disruptions

Digital Technology & Communication Coordinator • Theresia Jesus Jornet Community

2023 – 2026

- Managed community communication and digital operational needs
