OBJECTIVE

Goal-oriented Front-End & Mobile Developer with 2+ years of experience specialized in building scalable web and mobile applications using React, Next.js, and Flutter. Experienced in API Integration and building scalable RESTful services within agile teams to drive CI/CD improvements and deliver user-centric products.

WORK EXPERIENCE

PT AFKO Mahakarya Utama - Kab. Bogor, Jawa Barat, Indonesia

August 2024 – January 2025

Web Development & Digital Marketing (Part-Time Intern)

- Containerized the Bat-Army web app with Docker for consistent deployments and automated CI/CD pipelines via GitHub.
- Managed Google Ads (SEM) campaigns, generating 3,146 impressions, 234 clicks, and achieving a 7.44% CTR, which significantly outperformed industry standards.
- Designed the platform using modern frameworks, applying Responsive Web Design to ensure optimal cross-device usability.
- Analyzed daily metrics and Cost Per Click (CPC) to optimize ad budget allocation and streamline regular platform feature updates.

PT AFKO Mahakarya Utama - Kab. Bogor, Jawa Barat, Indonesia

November 2023 – January 2026

Event Manager & Team Coordinator (Full – Time)

- Promoted to Event Manager to spearhead large-scale public entertainment operations across 3 major mall locations: Pondok Indah Mall, Puri Indah Mall, and Pakuwon Mall Bekasi.
- Directed daily operational workflows and financial transactions, successfully driving the sale of over 41,500+ tickets.
- Formulated operational workflows and standard operating procedures (SOPs) to coordinate 20+ crew members across 3 branches.
- Acted as the primary escalation point for real-time problem resolution and rapid decision-making under high-pressure environments..

EDUCATION

S1 - Universitas Bina Sarana Informatika - Kota Bekasi, Jawa Barat

September 2021 – August 2025

Bachelor of Information Systems - GPA : 3.59 / 4.00

Undergraduate Thesis: SIPAKAR (Sistem Informasi Pantauan Karya Warga)

- Analyzed community administration bottlenecks within the division , designed the mobile system architecture using Flutter and Firebase , and conducted user testing to streamline record-keeping and financial reporting transparency.

PROJECT

- SIPAKAR (Sistem Informasi Pantauan Karya Warga)** | Mobile Developer Developed an Android-based application using Flutter and Firebase to digitize and integrate attendance, financial administration, and resident data management.
